

WHAT IS A HACKATHON?

A Hackathon is an event, normally lasting several days, in which a large number of people meet to engage in collaborative computer programming.

WHY DOES THE LMU ENTREPRENEURSHIP CENTER DO THIS EVENT?

The aim of the LMU Entrepreneurship Center for organizing the event is to bring together participants with IT skills that can develop proper business ideas and realize them in a team in only a short period of time. This goal is supported by our sponsor(s) who will offer you insights into cutting edge knowledge in their respective fields and industries. Moreover, they will keep their eyes open for recruitment opportunities.

HOW DOES TEAM BUILDING WORK?

Teams should consist of 5 members. By Friday evening, teams have been formed and you will be directed to your track rooms. Please make sure to form a team with the right mixture of skills! If you want to be in a team with your friends, make sure to pick the same tracks as long as available.

IS IT FREE?

The event is free of charge and we will serve fresh food and refreshing drinks during the weekend as well.

WHO CAN APPLY?

All participants (graduates and students of any university) are welcome. Also backgrounds from business, IT or design are welcome. Even if you have already finished your studies, of course you are welcome too! We reserve the right for ourselves to revoke the right of participation. Thus, a registration email alone does not guarantee a definite spot within the event.

WHAT IS THE HACKATHON ABOUT?

The Hackathon will be centered around a current technological challenge.

DO I GET A CERTIFICATE?

Everyone who successfully participated until the finals will get a certificate upon request to the email: team@summerhack.de

WHAT DO I NEED TO BRING?

You will only need to bring your own computer (fully charged if possible), a pen and paper.
